You welcome guests from all over the world…your control system should be just as universal. Lutron offers you comprehensive energy-saving and comfort-control solutions — for light, shade, and temperature — as well as intelligent building integration for all your properties across the globe.

We’ll be there for you
For more than 55 years, Lutron has set the standard for innovation, quality and service, and since 1976 we have helped create the perfect atmosphere in some of the world’s finest hotels.

Service and support
The Lutron Global Corporate Accounts team helps you navigate projects from start to finish, anywhere in the world. They offer 24/7 technical support by trained professionals and engineers based in the US, Europe, Asia, Africa and Australia.

World-class quality
Lutron delivers peace of mind with ISO certification, 100% end-of-line testing, long product life, 10-year battery life, and five decades of proven reliability.

One trusted brand for your entire property
From individual lighting controls to fully integrated building controls, and from the front desk to back of house and every guest suite, Lutron ensures a superb experience, energy savings, and intuitive controls.

One trusted brand for your entire property
From individual lighting controls to fully integrated building controls, and from the front desk to back of house and every guest suite, Lutron ensures a superb experience, energy savings, and intuitive controls.

ONE Globally Trusted Brand
ONE Controls Provider

Lutron helps enhance guest comfort, improve staff efficiency, and save energy throughout the property. Choose the ideal combination of light, shade and temperature control solutions, and specify with confidence.

Quantum Total Light Management systems
Improve comfort and productivity, simplify building maintenance and operations, and create beautiful, functional environments for the entire property.

Vive simple, scalable wireless lighting control
For simple retrofit and new construction, Vive is easy to install and setup, and lets you control, monitor, and adjust light levels from anywhere using your smart device.

GRAFIK Eye QS
Preset, multi-zone control ensures one-touch scene recall of lights and shades for meeting rooms, conference rooms, restaurants and public areas.

myRoom guestroom systems
Family of guestroom systems for light, temperature, and shade control that can be tailored to specific performance and budget requirements.

Residential control solutions
Caséta Wireless, RadioRA 2, and HomeWorks systems allow your residence owners to create their perfect home environment.
True luxury is achieved when technology works for you and your guests. With Lutron, you’ll never have to sacrifice comfort for functionality.

**Enhance guest comfort**
The total guest experience is the key to reputation, brand loyalty, and creating customers for life. Lutron helps to ensure a memorable experience with every visit.

Lutron light, shade, and temperature control solutions create a beautiful, comfortable, and personalized experience from check-in to check-out, and every time in between.

**Improve staff efficiency**
System alerts, powerful reports, high-performance products, and shared information help streamline workflow and simplify hotel operations.

**Reduce energy use and control costs**
Automated lighting, shade, and temperature control optimizes energy use, enhances productivity, and improves comfort.

Guestroom control systems can use industry-leading algorithms to manage costs and reduce lighting/HVAC energy use by up to 30%, while improving the guest experience.

Shading solutions help reduce glare, and minimize wear and tear on fabrics to support a more comfortable, longer-lasting, energy-efficient space.

And, by layering energy-saving strategies, the property can realize lighting energy savings of up to 60% in offices, meeting rooms, and back-of-house areas.

Lutron delivers the ideal experience every time. In the following pages we highlight specific Lutron solutions for each space in your hotel property.
Lobbies & Public Spaces

Lobbies are the face of your hotel — flexible, integrated lighting and shade control ensures your property always makes a great first impression.

Centralized control
Easily control, adjust, and monitor all the lights and shades from a centralized control using Quantum Vue software.

Flexible setup
Create automated, preset scenes for different occasions or times of day. Easily adjust or add scenes as the space changes, or for a special event.

Enhanced experience
Improve staff productivity and help create the ideal guest experience.

Quantum Total Light Management solutions create a seamless experience throughout the day, and enable simple adjustments to accommodate special occasions or changes to the space.
Restaurants & Lounges

The right atmosphere is key to a memorable dining experience. Intuitive keypad controls make it easy to recall preset scenes, ensuring that the staff can concentrate on the guest experience.

Create and recall scenes for everyday use
Intuitive controls give your staff peace of mind — from breakfast to dinner, and prep to cleanup.

Timeclock control
Deliver a seamless, stress-free lighting atmosphere.

Shade control
Automatic shade control with manual override ensures a comfortable, glare-free dining experience.

GRAFIK Eye preset scene controls and Sivoia QS Roller shades combine to complement every event, meal, or occasion.
Ballrooms

Ballroom lighting typically has to offer customization for a wide variety of events — from wedding receptions, to fundraisers, to classroom setups — your ballroom accommodates it all, and so should the lighting control system.

Dimming
Set the right light for any event and simplify fine lighting adjustments.

Partition controls
Create the perfect atmosphere for individual events, or deliver a beautiful environment in the total ballroom area.

Quantum Vue software
Facilitate real-time, in-space adjustment and monitoring from any smart device.

Create theatrical scenes
Provide the perfect light for that special occasion, and then easily return to automated control presets.
Conference & Meeting Rooms

Preset scenes make it easy to create and recall room scenes — or automatically control lights, shades, and temperature from a single keypad.

Setup and recall standard scenes
Create scenes for meetings, A/V presentations, teleconferences and luncheons.

Seamless A/V and shade integration
Deliver a comfortable, productive environment.

Flexible, individual fixture control
Customized control settings to meet every user need.

Preset scene control offers the perfect atmosphere for meetings and presentations at the touch of a button.

The Mandarin Oriental Hotel, New York, New York, USA
Guestrooms & Suites

Create a comfortable, energy-saving environment for your guests’ home away from home.

Energy savings
Control lights, shades, and temperature to automatically reduce energy use.

Improved guest experience
Simple-to-use, intuitive controls create a comfortable, familiar environment.

Shade control
Shade controls offer privacy and light control — pull-to-start shades provide familiar operation for any guest.

Improved operations
Lutron quality, reliability, and performance help ensure that guestrooms stay available for sale. Seamlessly connect suites and provide a comfortable stay for groups of guests.

myRoom prime and plus offer light, shade and temperature control, and save energy beautifully.
Luxury Penthouses

Take guestroom control to the next level and deliver the ultimate home away from home — luxury, comfort, and convenience for your most discerning guests.

Power to scale
With the power to handle the most demanding applications — whether it is whole-floor penthouses or multi-story villas, Lutron systems can scale to meet your needs.

Elevate the guest experience
Integrate with other systems like AV to create a smarter, more responsive atmosphere in luxury rooms. Create the ideal ambiance and the perfect room environment.

Elevate the service experience
Quickly respond to guest requests, troubleshoot issues, and easily integrate with other building systems.

myRoom plus guestroom system offers powerful, flexible and integrated solutions to handle your most demanding applications
Back of House

Simple, scalable lighting control offers the ideal energy-saving solution for both new and retrofit applications.

Energy savings
Lighting in many back-of-house spaces such as restrooms, hallways, and storage areas does not always have to be on — save energy automatically with occupancy sensors and scalable systems.

Simple installation and setup
Wireless controls reduce installation time by up to 70%, and save on labor costs and downtime.

Safety and security
Ensure the right lighting for safety and security, without wasting energy when a space is unoccupied.

Vive simple, scalable controls offer flexible, wireless energy-saving solutions. Our wired or wireless sensor controls save energy automatically.
Serviced Residences

Residential lighting control systems deliver high-tech luxury to owners.

Fully integrated, connected control
Centralized control for the entire apartment — wireless remotes, app-based control from any smart device, and convenient keypads deliver ultimate convenience and save energy beautifully.

Control lights, shades, and temperature
Adjust the entire space environment at the touch of a button, and easily create scenes for your favorite activities.

Lutron Caséta Wireless, RadioRA 2 and HomeWorks systems offer scalable solutions and app-enabled control for every home.
Shading Solutions for Every Space

Transform the guest experience – automated shades and shading control solutions provide the perfect balance of daylight and electric light from the hotel lobby to your guestrooms.

Automated shading solutions
Offer a variety of options from timeclock-controlled events, to preset scenes that can be recalled at the touch of a button, to solar-adaptive solutions that automatically adjust based on advanced environmental algorithms.

Pull-to-start draperies
Combine familiar, pull-to-start operation with optional remote controls for the perfect room atmosphere for every guest.

Architectural design and engineering excellence
Reliable performance, seamless integration, and advanced energy savings are just a few benefits of Lutron shading solutions.

Lutron Alena Drapery Track, Roller Shades and Roman Shades, Kirbé Vertical Drapery and Tensioned Shades offer a variety of options to enhance any property.
The Lutron Vue user interfaces provide intuitive tools to help you monitor, analyze, adjust, and report on building performance.

**Simple to use software**
Web-based software delivers the same user experience on all platforms – mobile devices and desktop computers make it easy to keep staff trained.

**Control from anywhere**
Facility managers can control lights, shades, and temperature from anywhere...inside the building or anywhere in the world.

**Familiar look and feel**
Designed by a dedicated UX team, Quantum Vue, myRoom Vue, and Vive Vue software features the same, intuitive system look and feel to simplify operations.

Quantum Vue, myRoom Vue, and Vive Vue software offers a familiar user interface in each product platform.
Facility Management Software
Focused on areas other than guestrooms, Quantum Vue helps you manage the property’s public spaces with features including load shed, scheduling, create favorite buttons, space utilization reports, daylighting and Hyperion solar-adaptive shading.

Building dashboard
Monitor and adjust whole-building performance at a glance. Review energy, alerts, and current occupancy. Simply and quickly create time-based control of facility lighting and shades. Respond to load shed requests automatically, or at the touch of a button.

Optimized building real estate usage
Use Quantum occupancy sensor data (historic and live) to provide reports on space utilization for the entire building or for a particular area. Improve maintenance crew efficiency and make better-informed decisions on repurposing underutilized spaces.

Time-based control of facility lighting
Lights can automatically be set to a preset level or to turn on/off based on the time of day. Shades can automatically raise or lower in certain spaces at specific times.

Guest Room Management Software
Focused on the guestrooms, HVAC control and room status are unique to myRoom Vue, and provide an optimized experience when interacting with the guestrooms.

Room dashboard
Monitor and adjust a single room or area efficiently. Control and monitor lights, shades and HVAC in the room. Review energy and alerts in the room for troubleshooting and maintenance, or review current room status and enable/disable room automation.

Floorplan navigation
Easily navigate through a visual floorplan of the building. Quickly manage multiple areas, troubleshoot issues, and monitor building performance from anywhere.
- Pan-and-zoom feature dynamically adjusts the details presented based on zoom level.
- View alerts, lighting status, occupancy, or current energy usage.

HVAC control
Easily view and adjust the current status of HVAC/thermostat settings.
- Control the thermostat settings and adjust set backs based on guestroom status.
- View current and historical HVAC performance for troubleshooting.
Design Options: 
Colors, Finishes, Styles, and Fabrics

Innovative, intuitive solutions help you achieve your design vision, and establish a unique aesthetic for your property.

**Controls and keypads**
Lutron offers a variety of control styles, and accessories to customize the solution for your property.

**Colors and finishes**
Select from a broad palette of colors and finishes to complement your style.

**Shades and fabrics**
Hundreds of options from sheer to blackout shades allow you to select the perfect combination of technology, fabrics, and controls.

**Robust customization capabilities**
For those one-of-a-kind projects, Lutron can help you create custom controls to meet specific design and detail requirements.

Choose from a range of control styles, finishes, and capabilities.

Lutron Shading Solutions

Lutron offers a variety of options to enhance any property.

Shade Types

**Drapery/Curtain Tracks**
Suggested uses: guest rooms, restaurants, lobbies
- Pull-to-start functionality available
- Offer daylight control in pinch pleat or ripplefold styles
- Pinch pleat and ripplefold fabric styles
- Straight, curved, and long-track systems available

**Roller Shades**
Suggested uses: guestrooms, hotel lobbies, conference rooms, restaurants, ballrooms
- Lutron’s most versatile shade style
- Available in different sizes – ideal for multi-story windows and curtain walls
- Precise alignment of multiple shades
- Sheer, translucent, and blackout opacities available

**Roman Shades**
Suggested uses: guestrooms, apartments
- Feature CERUS safety technology, which eliminates exposed cords
- Soft fabrics and woven woods are available in Lutron’s fabric collections; customer’s own material can also be used

**Kirse Vertical Drapery System**
Suggested uses: guestrooms, conference rooms
- Eliminates stackback with its one-of-a-kind drapery roller system

**Drapery/Curtain Tracks**
Suggested uses: guest rooms, restaurants, lobbies
- Pull-to-start functionality available
- Offer daylight control in pinch pleat or ripplefold styles
- Pinch pleat and ripplefold fabric styles
- Straight, curved, and long-track systems available

**Kirse Vertical Drapery System**
Suggested uses: guestrooms, conference rooms
- Eliminates stackback with its one-of-a-kind drapery roller system

**Tensioned Shades**
Suggested uses: guestrooms, lobbies
- Maximize view and privacy
- Available in meet-in-the-middle, skylight, and bottom-up shades
- Can be installed at any angle

Shade Types

Our design-focused fabric collections for motorized shades deliver outstanding performance and exceptional aesthetics. Choose from a range of colors, patterns, textures, and styles, including environmentally friendly and fire-rated fabrics.

**Avant Collection**
Traditional Drapery, Kirse Vertical Drapery, Venetian Blinds, and Roman Shades

**Gallery Collection**
Roller Shades

**Euro Collection with Coulisse**
Roller Shades and Venetian Blinds

**Classico Collection**
Roller Shades and Tensioned Shades

**Customer’s Own Material**
We recognize the unique nature of your projects. You may need to match or coordinate window treatments with your brand. We welcome customer’s own material requests in addition to offering our well-rounded collection of shade fabrics.
Choosing the Right Solution

Innovative, intuitive solutions help you achieve your design vision, and meet and exceed energy goals for your entire property.

**Guestroom control solutions**
From standalone control to integrated guestroom management systems, choose the right solutions to create a home-away from-home for every guest.

**Centralized control systems**
Achieve centralized control of lights, shades, and temperature for every other space in your hotel. Manage, monitor, and adjust settings using Quantum Vue software, and improve the entire experience for your staff and guests.
Guestroom control — Standalone solutions

Save energy and improve guest comfort with personal light and shade control

Pico remote controls
Give guests the ability to adjust lights and shades right from a bedside or wall control to ensure a comfortable, relaxing stay.

Simple drapery control
Pull-to-start draperies offer familiar operation and ensure guest privacy.

Dimmers and Switches
Dimmers, switches, and sensors help control room ambiance.
Guestroom System — **Standalone Solutions**

Select the system components

### Load Controls
- **Caseta dimmers and switch**

### Load Controls
- **Caseta dimmers and switch**
- **Pow Pak Relay and 0–10V modules**
- **Maestro dimmers and switch**
- **Maestro bathroom and timer occupancy sensor**

### Keypads
- **Pico wireless control for lights or shades**

### Draperies/shades
- **Alena drapery track**
- **Alena QS drapery track**
- **Sivoia QS Roller Shades**

---

**Save energy, and allow guests to personalize the room experience.**

- Pico wireless remotes and RF-enabled load controls offer simple installation and operation, helping to reduce energy use while improving comfort
  - **Pico Scene controls** — Master on/off controls at the room entrance make energy savings easy
  - **Pico Bedside controls** — offer “goodnight” scenes or “all off” control for guest convenience
  - **Pico Master On/Off controls** — provide common light/shade scenes at the touch of a button
- Alena pull-to-start draperies are intuitive and familiar for any guest — add a Pico remote for convenient bedside control
- Maestro in-wall occupancy sensors and timers ensure lights and fans are not left on in bathrooms

**Note:** Not all products are available in all regions.
myRoom prime is a guestroom control system independent of hotel management systems.

Light, Temperature, and Shade Control
Independent of hotel management systems.

Guest Presence Detection
A combination of occupancy sensing, door open/close, and keypad button press information determines room occupancy.

Energy Savings
Automatically reduce lighting and HVAC use based on guest presence detection.
Guestroom System — myRoom Prime

Select the system components

- Every myRoom prime system starts with lighting control that can respond to guest presence detection
- Complete the system with temperature control and Alena drapery track solutions

myRoom plus is a guestroom management system that integrates with hotel management systems.

**Guest Presence Detection**
Uses a combination of occupancy sensing, door open/close, and keypad button press information to determine room occupancy.

**Energy Savings**
Increased energy savings from sold/unsold information with additional HVAC setbacks.

**myRoom Vue**
A powerful and easy-to-use web-based, front-end dashboard that allows for monitoring, adjustment and troubleshooting of lights, HVAC, and motorized window treatments in guestrooms from a tablet or desktop-based browser.

**Integration**
Integrates with property, building, and door lock management systems and AV systems for additional guest and staff benefits.
Select the system components

**Quantum Hubs/Power Panels**
- Quantum hubs
- QS smart panel power supply
- Energi Savr Node (EcoSystem, 0–10V Switching)
- Architectural dimming and switching panels (GP, XP, LP)

**Note:** Not all products are available in all regions.
Vive System Components
A revolutionary wireless lighting control solution for new and existing buildings

Wireless controls and sensors

Sensors
- Radio Powr Savr occupancy/vacancy sensors
- Radio Powr Savr daylight sensor
- Fixture control sensor

Light Controllers
- Maestro dimmers and switch
- PowPak Relay and 0–10 V modules
- Plug load controllers

Vive Software

Energy reporting
Quickly view and display energy usage information to drive decision making and demonstrate savings.

Load shed
Easily set lighting reduction levels that automatically respond during peak electricity usage times.

Schedules
Use a simple, weekly calendar to automatically adjust lights based on time of day.

Vive Hub

Note: Not all products are available in all regions.
